Regesta Imperii: chronological inventory of all documentary sources and historiography about germans kings	Charters	Id, date, summary (in German), archival history, title, commentary, litterature, footnote, incipit, seal descripiton, witnesses, link to the digital document	Rest API: can have the XML-CEI one by one or by registers	BaseX: more efficient for many XML files, can do relations b/n persons and places, have a REST solution	REST API?	Difficulty to see the digitized versions
Regesta decretalium: Papsturkunden	charters	Summary, name, date, place, editor, institutions, Pontificia vol, comments.	PDF versions			no ways to export the documents or the database, no API (contact the professor in charge?) Website down
Gallia pontificia: project from the DHIP-IHA						cf papsturkunden
Regesta pontificum romanorum (Jaffé 2)	digitized (papal letters)	Main content of a letter, date, place, prints and some research literature	PDF			cf papsturkunden
Chartae Galliae: database for french charters until the 13th century	Charters	id, type of the charter, date, author, summary, trancription, bibliography.	HTML?	Depends of the format		No visible way to export the database. Metadatas are in french
APOSCRIPTA database: papal letters	letters	Date, type, author, place, summary, analyse, transcriptions	XML or JSON	BaseX		Metadatas in english.
Monasterium.net: charts collection, pope and anti-popes	parchment (charters)	summary, transcriptions sometimes, photography	PDF and XML CEI export, images are .jpg	BaseX: more efficient for many XML files, can do relations b/n persons and places	REST API?	Digital to Distant Diplomatics (DiDip) project: datas from the monasterium, 14th-15th documents. Impossible to retrieve the transcription with the XML or PDF export, need to contact someone.
Diplomata Belgica database	letters, charters	Actors, dates, summary, text, bibliography				ID in URL, good metadatas
Clavis Canonum: medieval church law			PDF?			Difficult to search in it, seems to have pdf
Lichtbildarchiv älterer Originalurkunden (photos archives)		Photography	JPEG, black and white	IIIF server : allow a very powerful zoom quality, maybe use the annotations tool ?		need an account to 'order' images, need to find a way to export the images
